**Guide for Windows  
users with Internet  
Explorer and Firefox**

## Check the Java version

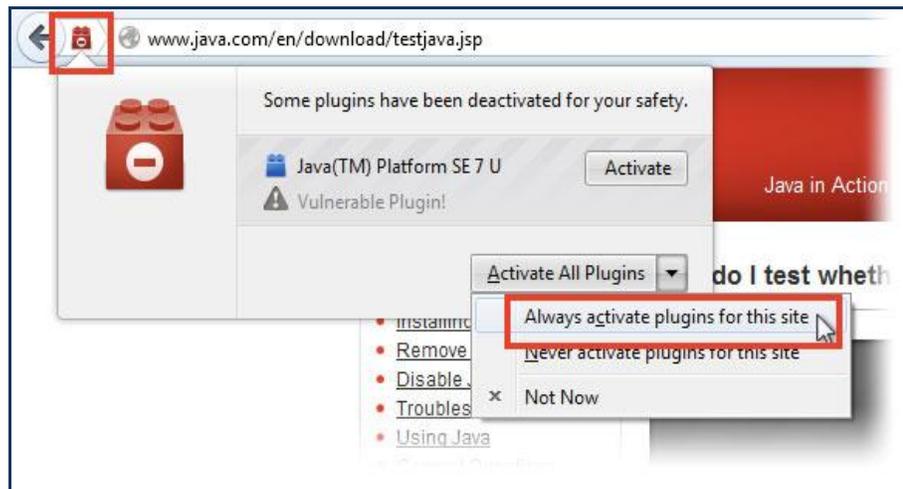

---

1. Launch a browser and go to <http://www.java.com/en/download/installed.jsp?detect=jre>

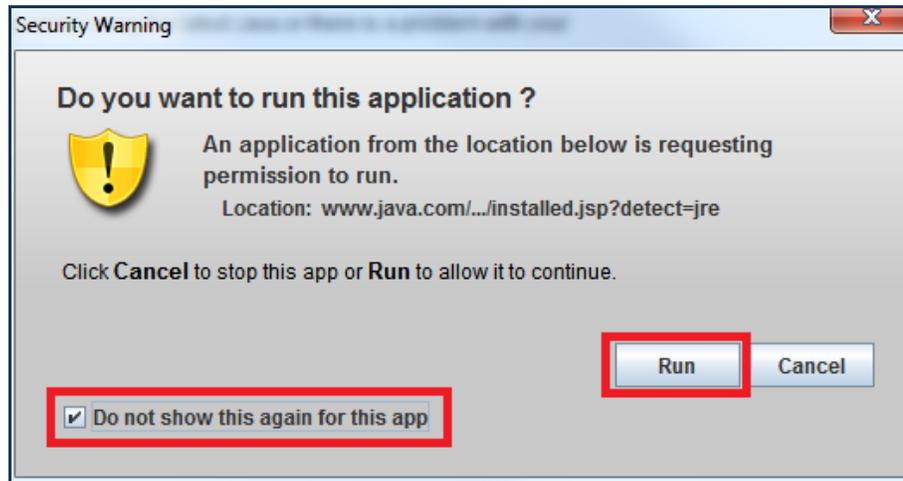

2. Some Firefox users may encounter the following message.

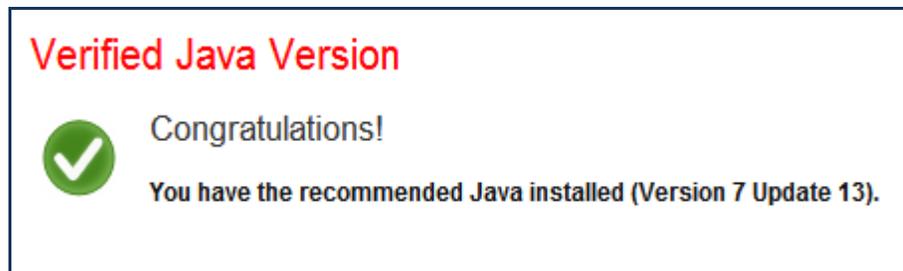

Click the red plugin icon in the address bar and a message window will open. At the bottom of the message window, click the **Activate All Plugins** dropdown menu and choose **Always activate plugins for this site**.

3. If you are prompted to run Java, select **Do not show this again for this app** and click on **Run**.

4. You should see any of the following:

- a. Internet Explorer, please [click here](#)
- b. Firefox, please [click here](#)

If a newer version of Java is available, please [click here](#) to install the latest version.

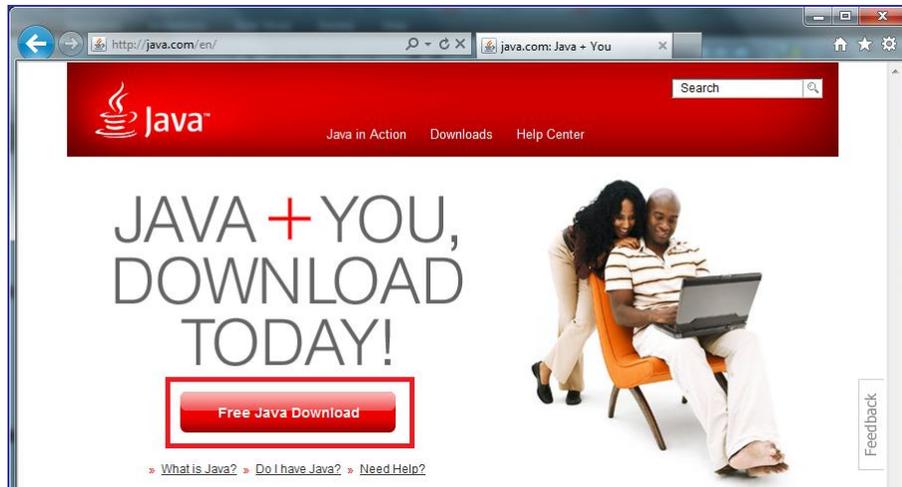

## Verify Java Version

We are unable to verify if Java is currently installed and enabled in your browser.  
[See the troubleshooting FAQ.](#)

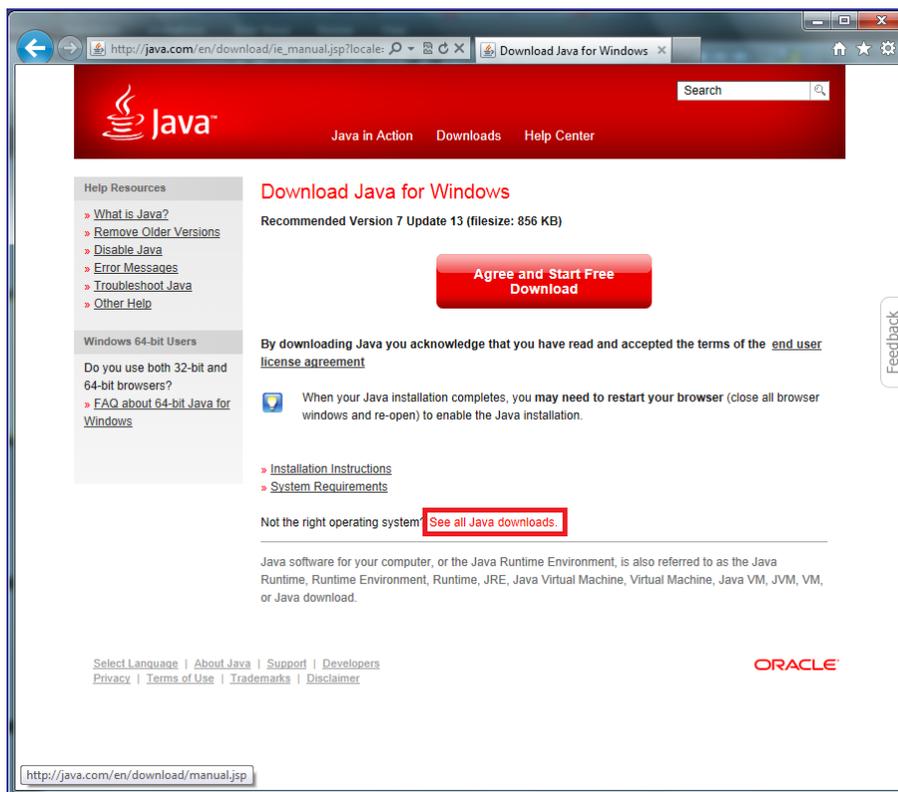

If the website is unable to verify the Java on your browser, please [click here](#) to install the latest version of Java.

# Install latest Java on Windows PC

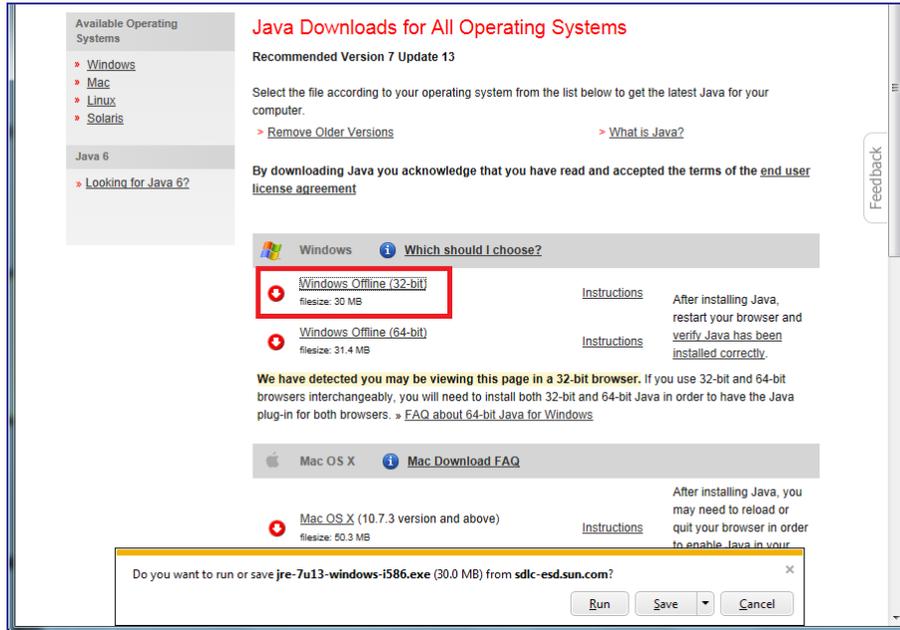

1. Launch a browser and go to [java.com](http://java.com) > Click on **Free Java Download**

2. Click on **See all Java downloads**

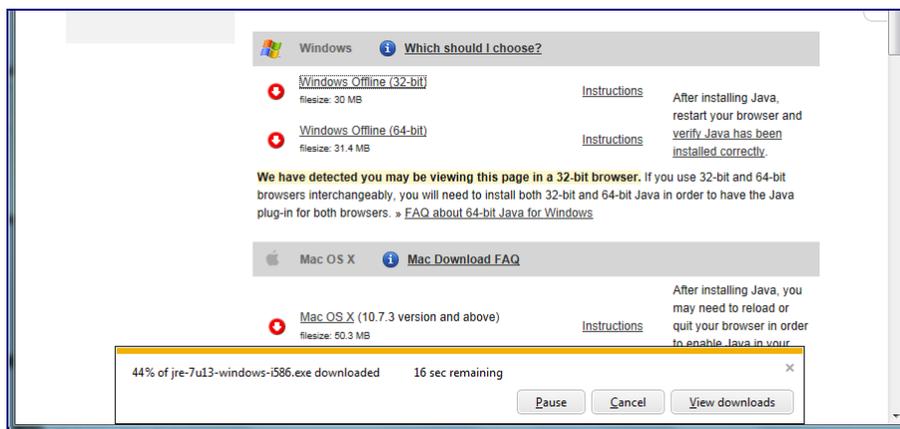

3. Click on **Windows Offline (32-bit)** > **Save**

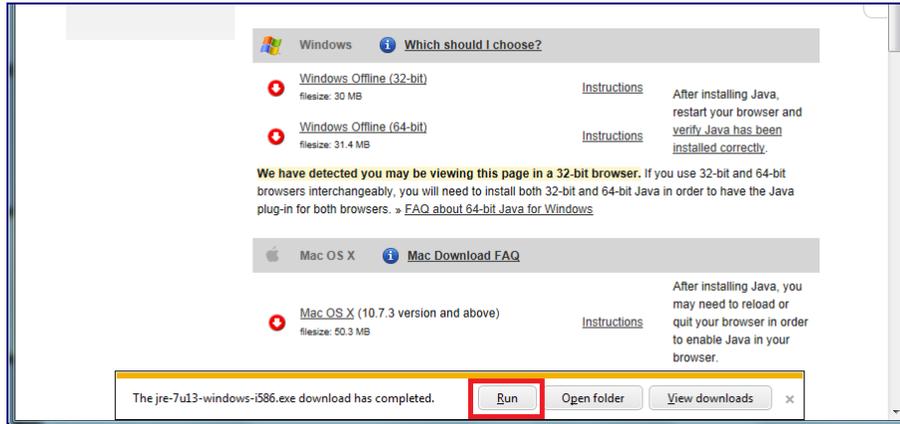

64-bit Windows operating systems (which may be Windows 7, Vista or XP) comes with a 32-bit Internet Explorer (IE) browser as the standard (default) for viewing web pages. These operating systems also include a 64-bit Internet Explorer browser, however using it is optional and it must be explicitly selected to view web pages. Note that because some web content may not work properly in a 64-bit browser, we recommend using the default 32-bit browser and downloading 32-bit Java.

4. Wait for download to complete

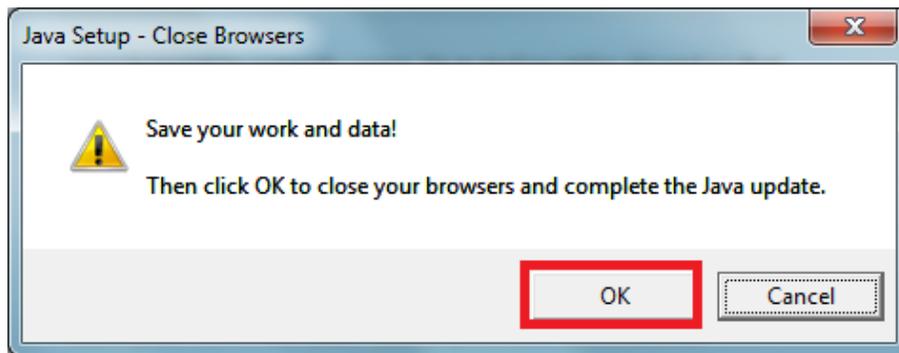

5. Click on **Run** to proceed with the installation.

6. If your browser is not closed, you will receive the following message. Click on **Close Browsers and Continue**

7. Click on **OK** to close your browsers.

8. Please wait while the system is installing Java

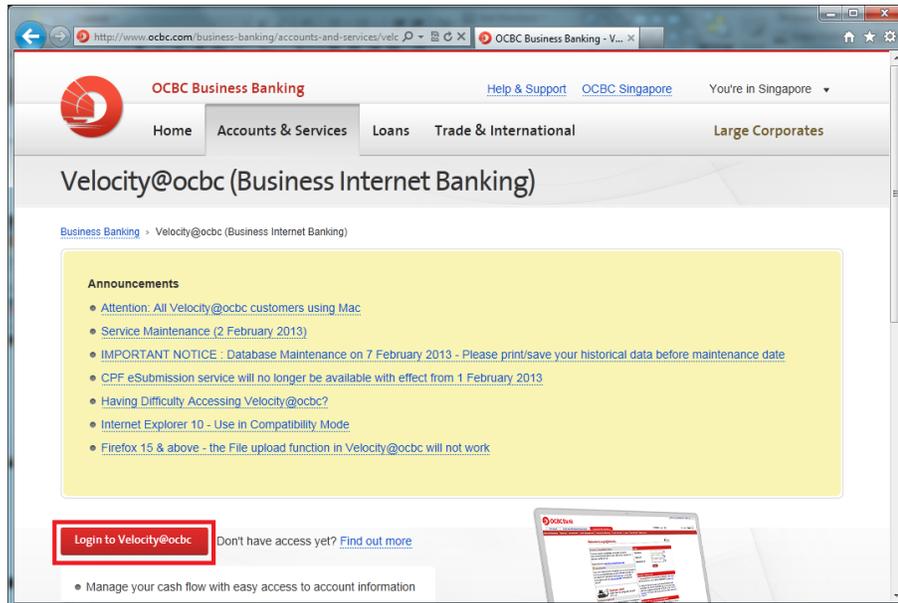

9. Click **C**lose to complete the installation.

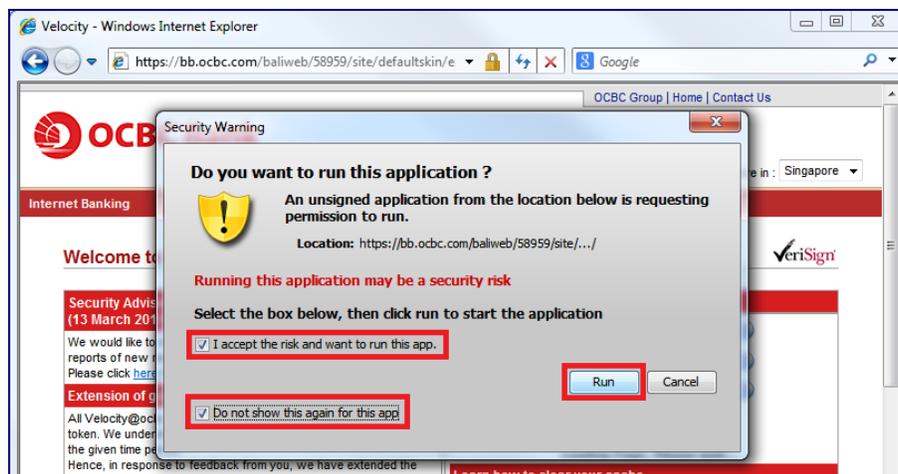

10. To login using
  - a. Internet Explorer, please [click here](#)
  - b. Firefox, please [click here](#)

# Login using Internet Explorer

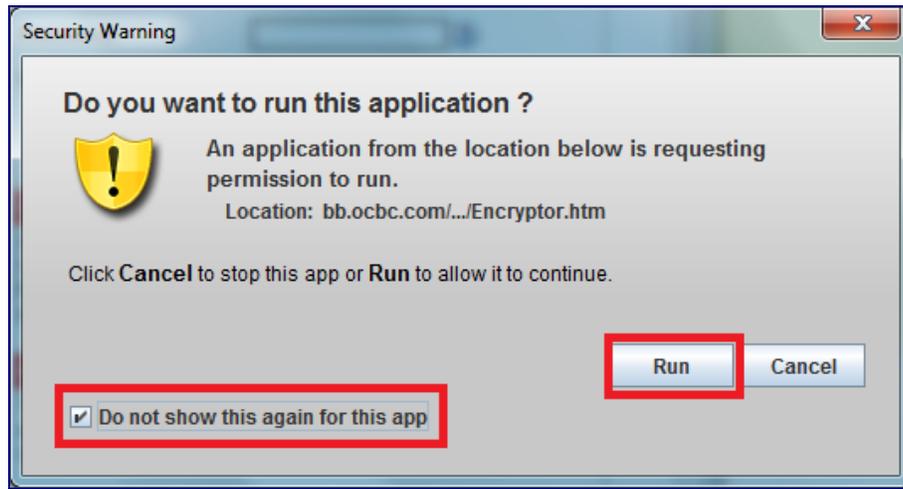

1. Launch Internet Explorer and go to [bb.ocbc.com](http://bb.ocbc.com) > Click on **Login to Velocity@ocbc**

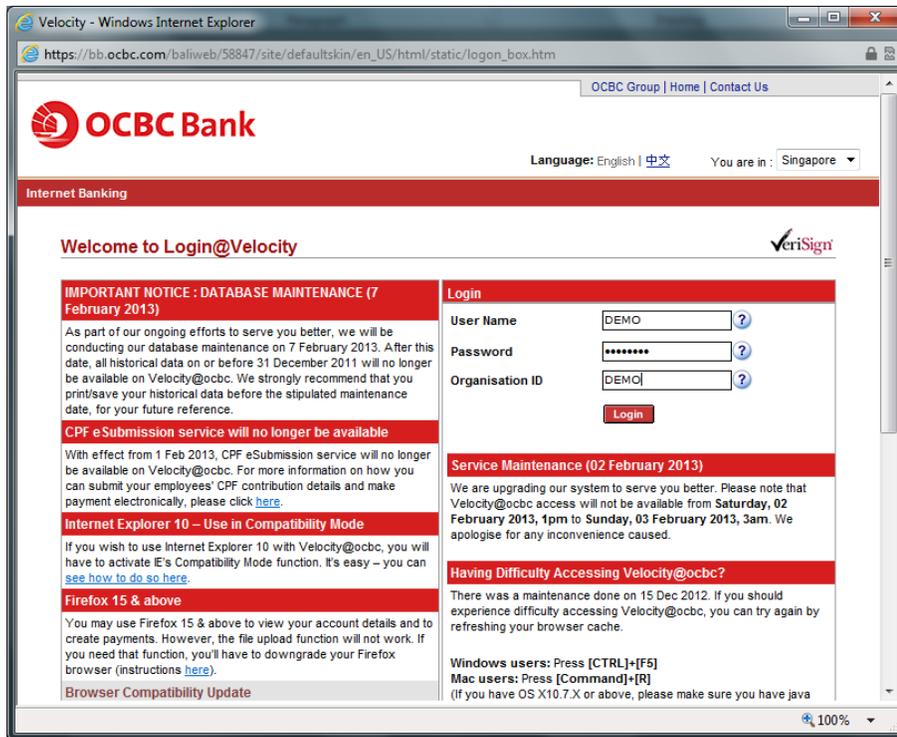

2. You will be prompted to run Java before entering login credentials
  - a. For Java 7 Update 21 onwards, select **I accept the risk and want to run this app** and **Do not show this again for this app**, then click on **Run**

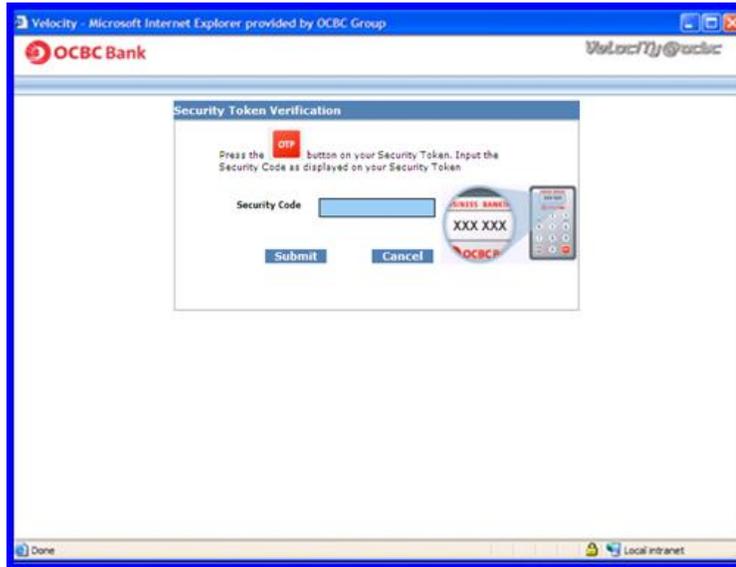

- b. For prior Java version, select **Do not show this again for this app** and click on **Run**.

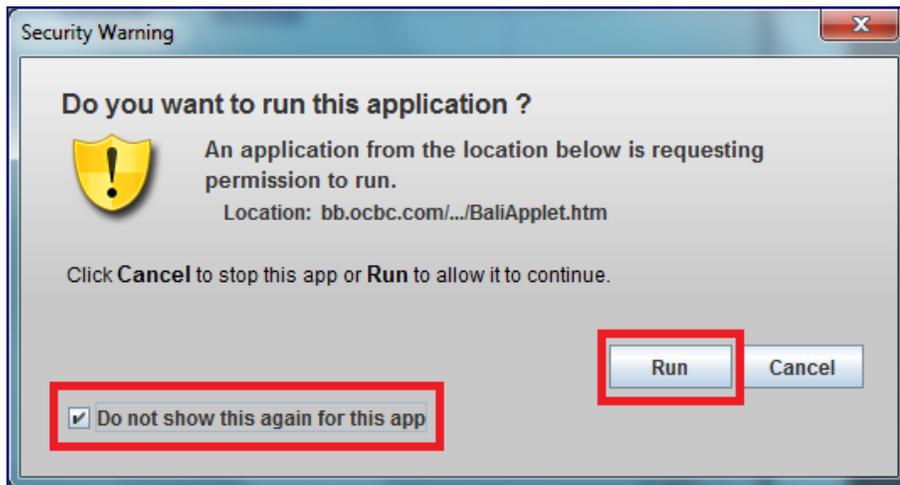

3. Enter your **User Name**, **Password** and **Organisation ID**

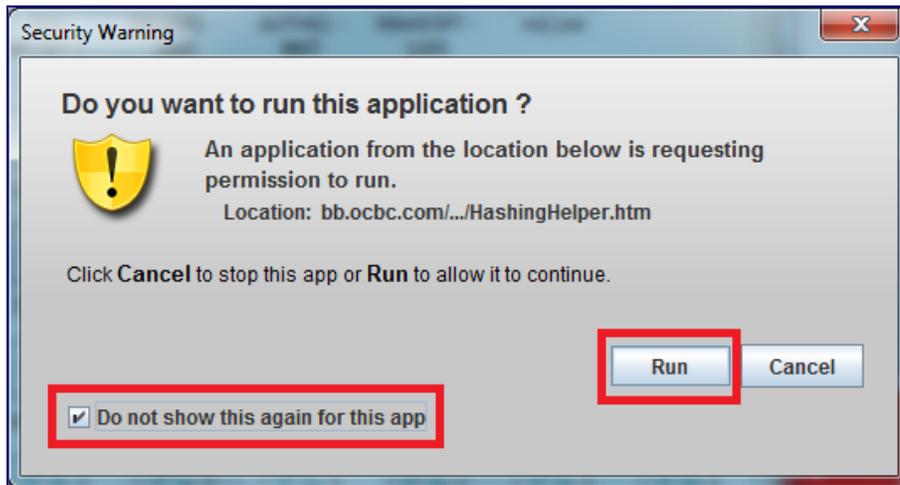

4. Enter the Security Code displayed on your token and click on **Submit**.

5. For prior Java version, you would be prompted to run Java for the second time, select **Do not show this again for this app** and click on **Run**.

- For prior Java version, you will be prompted to run Java for the third time, select **Do not show this again for this app** and click on **Run**.

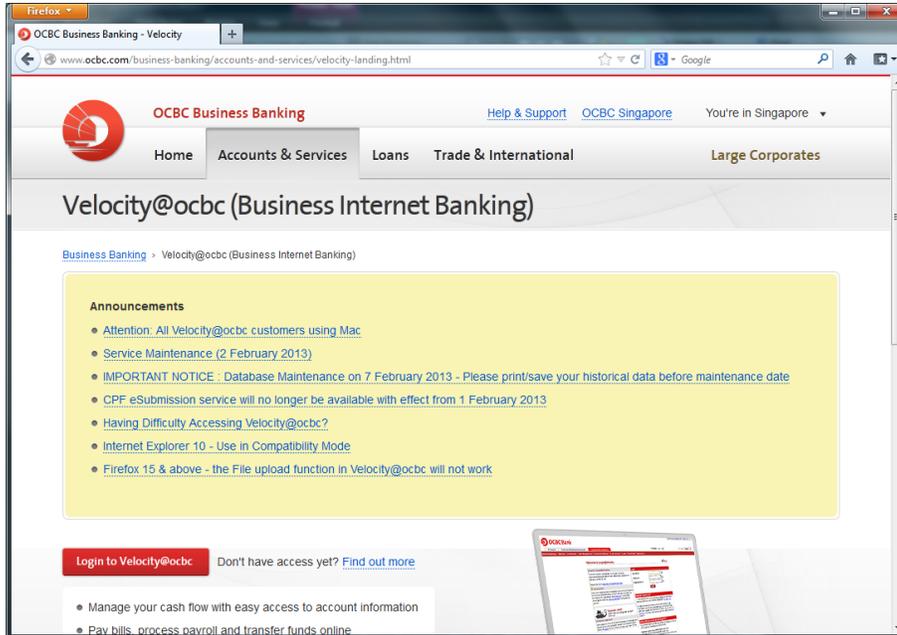

- You have now successfully login to Velocity@ocbc

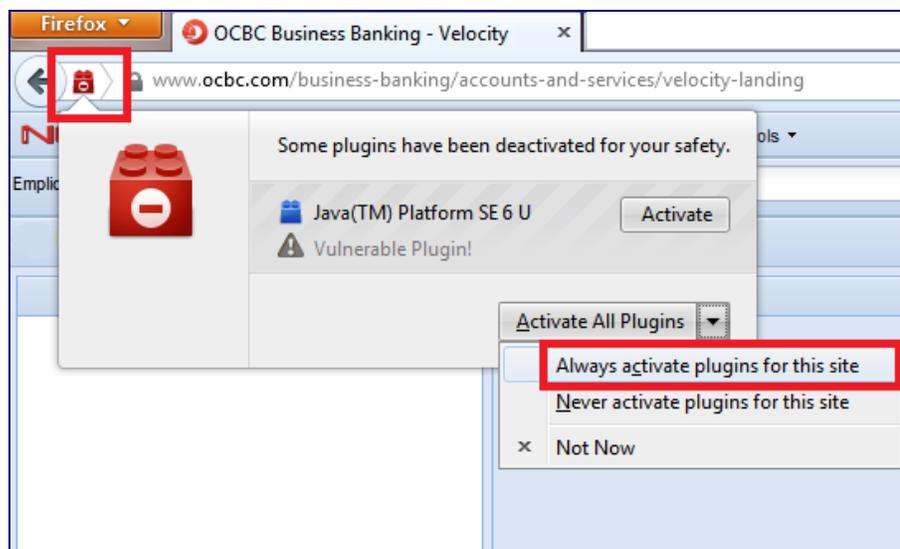

# Login using Firefox

1. Launch Firefox and go to [bb.ocbc.com](http://bb.ocbc.com) > Click on **Login to Velocity@ocbc**

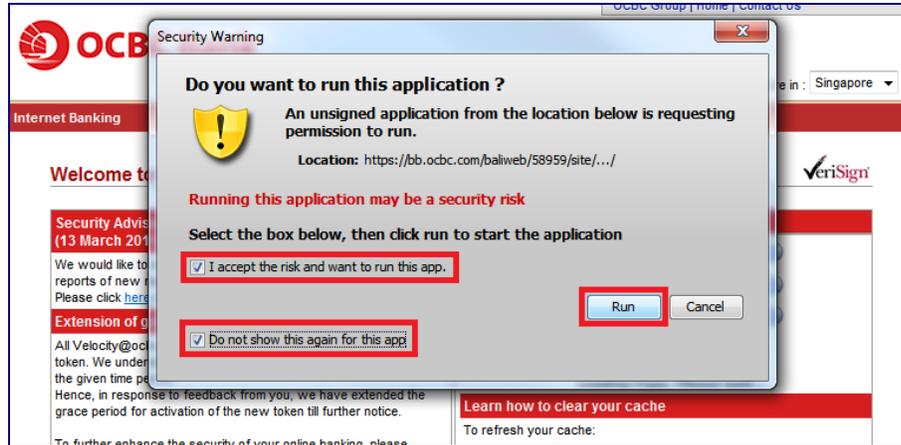

2. Some Firefox user may encounter the following message.

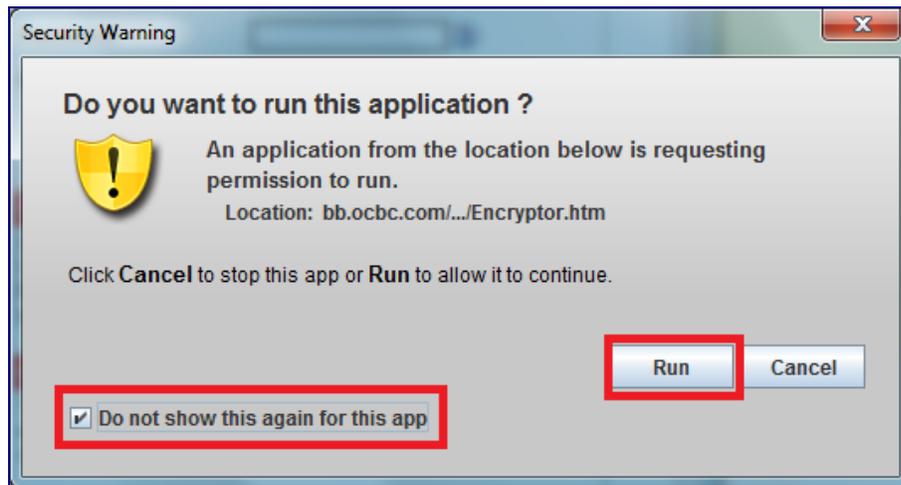

Click the red plugin icon in the address bar and a message window will open. At the bottom of the message window, click the **Activate All Plugins** dropdown menu and choose **Always activate plugins for this site**.

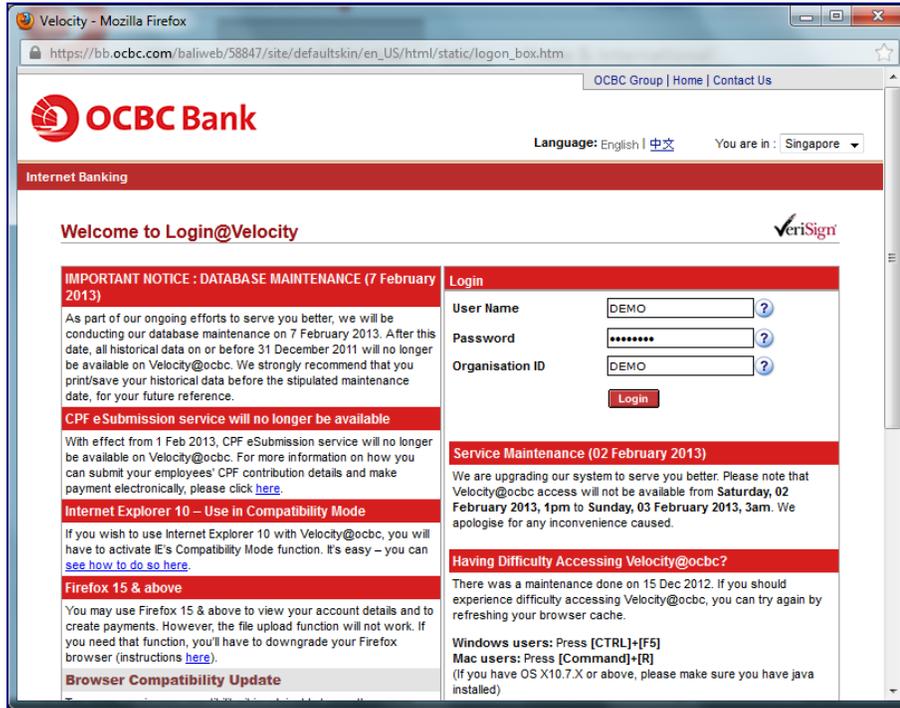

3. You will be prompted to run Java before entering login credentials
  - a. For Java 7 Update 21 onwards, select **I accept the risk and want to run this app** and **Do not show this again for this app**, then click on **Run**

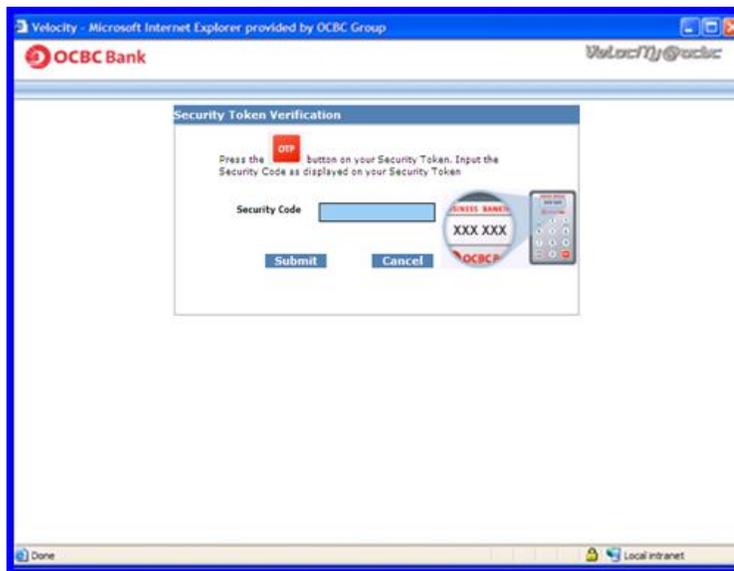

- b. For prior Java version, select **Do not show this again for this app** and click on **Run**.

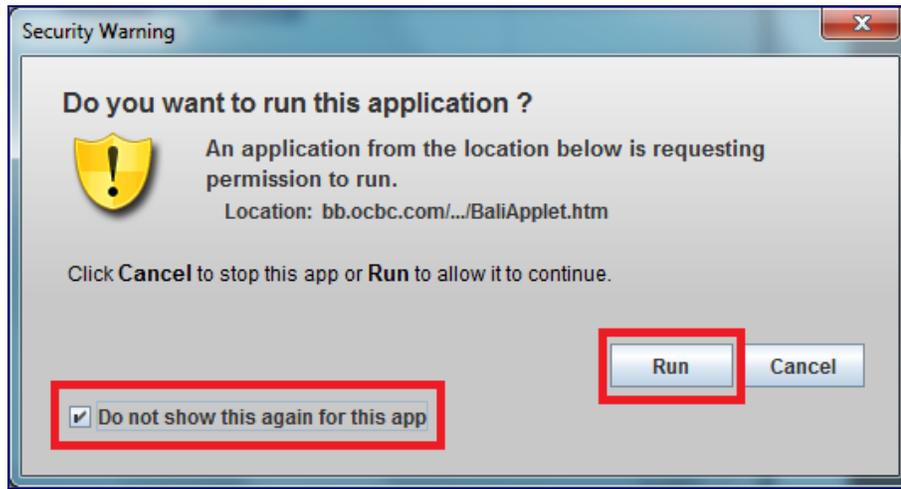

4. Enter your **User Name**, **Password** and **Organisation ID**

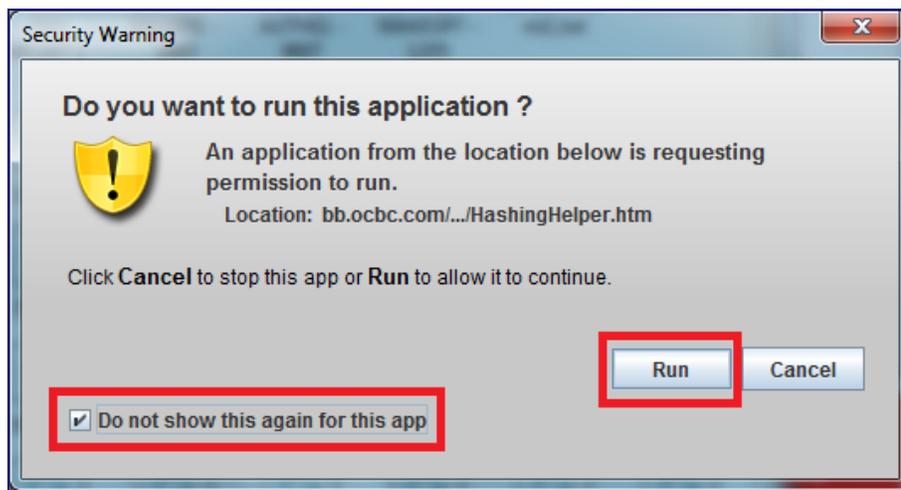

5. Enter the Security Code displayed on your token and click on **Submit**.

6. For prior Java version, you will be prompted to run Java for the second time, select **Do not show this again for this app** and click on **Run**.

7. For prior Java version, you will be prompted to run Java for the third time, select **Do not show this again for this app** and click on **Run**.

8. You have now successfully login to Velocity@ocbc
