- Offer for GEH is driven by revenue synergies, not cost savings. GEH will retain its own brand name and continue to be managed separately
- We will review relevant business areas where incremental revenues can be generated from closer partnership, e.g. in product development, marketing and distribution, and customer services
- GEH's 17,000 agents in Malaysia can boost our distribution capability in Malaysia significantly, beyond our 25-branch network
- We will work more closely together in expanding our regional presence, e.g. in China and Indonesia. GEH has established an insurance joint venture in Chongqing, China, while OCBC has acquired 22.5% stake in Bank NISP in Indonesia

- We have also raised our interim dividend from 11 cents to 19 cents, in line with our revised minimum 35% dividend payout policy
