OCBC Group Reports Record First Quarter 2015 Net Profit after Tax of S\$993 million

***Strong earnings growth across the Group's key markets
lifted net profit by 11% from a year ago and 26% from the previous quarter***

Singapore, 30 April 2015 - Oversea-Chinese Banking Corporation Limited ("OCBC Bank") reported a net profit after tax of S\$993 million for the first quarter of 2015 ("1Q15"), an increase of 11% from S\$899 million a year ago ("1Q14") and 26% higher than S\$791 million the previous quarter ("4Q14"). The 1Q15 results were underpinned by strong growth in the Group's customer-related businesses across a more diversified earnings base, with all its key markets of Singapore, Malaysia, Indonesia and Greater China delivering positive profit growth. The first quarter results included the consolidation of OCBC Wing Hang Bank, which became a subsidiary in the third quarter of 2014.

Net interest income increased 15% to S\$1.25 billion from S\$1.09 billion a year ago, mainly from robust asset growth. Customer loans rose 20% from a year ago to S\$210 billion, with broad-based growth across the Group's key customer segments and markets. The Group continued to strengthen its funding position and grew customer deposits by 26% to S\$250 billion from S\$199 billion in 1Q14. As a result, the Group's loans-to-deposits ratio ("LDR") was 83.0% as compared with 87.0% a year ago. Despite improving consumer loan spreads in Singapore, the lower LDR and weaker income from money market gapping activities contributed to an eight basis points decline in the Group's net interest margin from 1.70% to 1.62%. Excluding the consolidation effect of OCBC Wing Hang, customer loans and deposits grew 4% and 8% year-on-year, respectively.

Non-interest income rose 7% to S\$859 million from S\$800 million a year ago. Fee and commission income increased 12% to S\$395 million from strong growth in wealth management, brokerage, fund management and trade fees. Net trading income, primarily treasury-related income from customer flows, grew 25% to S\$123 million from S\$99 million in 1Q14. Profit from life assurance grew 9% year-on-year to S\$199 million, lifted by higher operating profit from Great Eastern Holdings ("GEH") and mark-to-market gains in its Non-participating Fund. GEH's new business embedded value margins rose to 40.7% from 38.2% a year ago, driven by improved channel and product mix.

The Group's share of results of associates and joint ventures rose to S\$89 million from S\$17 million in the previous year, largely attributable to Bank of Ningbo, which became a 20%-owned associated company of the Group on 30 September 2014.

The Group's overall income from wealth management activities (comprising income from insurance, private banking, asset management, stockbroking and other wealth management products) grew from S\$572 million a year ago to a new quarterly high of S\$583 million. As a share of the Group's total income, wealth management activities contributed 28% as compared with 30% in 1Q14. OCBC's private banking business continued to expand, with assets under management increasing 4% to US\$51 billion (S\$70 billion) as at 31 March 2015, up from US\$49 billion (S\$62 billion) the previous year.

Operating expenses for the quarter rose 24% to S\$873 million from S\$706 million a year ago, after consolidating OCBC Wing Hang. The Group's cost-to-income ratio was 41.4% for the quarter. Excluding OCBC Wing Hang, operating expenses increased 9%, largely from higher staff costs and a 3% rise in headcount to support the expansion of the Group's franchise in its key markets.

Allowances for loans and other assets were S\$64 million, compared with S\$41 million a year ago, partly attributable to the consolidation of OCBC Wing Hang. The Group's asset quality remained sound, with the non-performing loans ("NPL") ratio at 0.6%, an improvement from 0.7% a year ago.

Annualised return on equity for 1Q15 of 13.2% was higher than 10.6% of the previous quarter, while annualised earnings per share was 99.7 cents, a 29% increase over 77.4 cents in 4Q14. Both ratios were however lower as compared to a year ago as a result of the dilutive impact arising from the rights issue in the third quarter of 2014.

Against the previous quarter, the Group's net profit after tax was 26% higher. This was largely attributable to higher fee income, net trading income and profit from life assurance. On a quarter-on-quarter basis, operating expenses were 5% lower.

Allowances and Asset Quality

Net allowances for loans and other assets were S\$64 million as compared with S\$41 million a year ago, and were lower than S\$154 million the previous quarter. Specific allowances for loans, net of recoveries and write-backs were S\$45 million for the quarter and represented an annualised 9 basis points of loans.

The Group's asset quality and coverage ratios remained sound. The NPL ratio of 0.6% in 1Q15 was lower than 0.7% from a year ago. Total cumulative allowances represented 166% of total non-performing assets ("NPAs") and 559% of unsecured NPAs, a higher coverage ratio as compared with 145% and 396%, respectively a year ago. The higher coverage was also partly from the consolidation of OCBC Wing Hang.

Funding and Capital Position

The Group maintained a strong funding and capital position. Customer deposits increased 26% (8%, excluding the OCBC Wing Hang) to S\$250 billion, while the ratio of current and savings accounts to total customer deposits rose quarter-on-quarter to 45.5%. As at 31 March 2015, the Singapore dollar and all-currency liquidity coverage ratios for the Group (excluding OCBC Wing Hang) were 273% and 117% respectively, higher as compared to the respective regulatory ratios of 100% and 60%. OCBC Wing Hang's liquidity coverage ratios will be incorporated into the overall Group position in due course.

As at 31 March 2015, the Common Equity Tier 1 capital adequacy ratio ("CAR") was 13.5% and Tier 1 CAR and Total CAR were 13.5% and 15.5% respectively. Based on Basel III transitional arrangements, these ratios were in excess of the respective regulatory minima of 6.5%, 8% and 10%. The Group's leverage ratio of 7.2% was well above the 3% minimum requirement as guided by the Basel Committee.

CEO's Comments

Commenting on the Group's performance and outlook, CEO Samuel Tsien said:

"We are pleased with our strong start to 2015. The solid set of results demonstrates the increased diversity of our earnings base, and the progress that we are making in deepening our presence in our key markets. We will further invest in our businesses and leverage synergies across the expanded OCBC franchise to better serve our customers. Supported by our strong capital and funding position, we will continue to pursue a disciplined and prudent strategy of sustainable growth in our key markets."

About OCBC Bank

OCBC Bank is the longest established Singapore bank, formed in 1932 from the merger of three local banks, the oldest of which was founded in 1912. It is now the second largest financial services group in Southeast Asia by assets and one of the world's most highly-rated banks, with an Aa1 rating from Moody's. Recognised for its financial strength and stability, OCBC Bank is consistently ranked among the world's strongest and safest banks by leading market research firms and publications.

OCBC Bank and its subsidiaries offer a broad array of commercial banking, specialist financial and wealth management services, ranging from consumer, corporate, investment, private and transaction banking to treasury, insurance, asset management and stockbroking services.

OCBC Bank's key markets are Singapore, Malaysia, Indonesia and Greater China. It has over 630 branches and representative offices in 18 countries and territories. These include the more than 330 branches and offices in Indonesia operated by subsidiary Bank OCBC NISP, and 95 branches and offices in Hong Kong, China and Macau under OCBC Wing Hang.

OCBC Bank's private banking services are provided by subsidiary Bank of Singapore, which has received increasing industry recognition as Asia's Global Private Bank, and was voted Outstanding Private Bank in Southeast Asia in 2014 by Private Banker International.

OCBC Bank's insurance subsidiary, Great Eastern Holdings, is the oldest and most established life insurance group in Singapore and Malaysia. Its asset management subsidiary, Lion Global Investors, is one of the largest private sector asset management companies in Southeast Asia.

FINANCIAL SUMMARY

OCBC Group prepares its financial statements in accordance with the Singapore Financial Reporting Standards (“FRS”) as required by the Singapore Companies Act, including the modification to FRS 39 *Financial Instruments: Recognition and Measurement* requirement on loan loss provisioning under Notice to Banks No. 612 “Credit Files, Grading and Provisioning” issued by the Monetary Authority of Singapore.

The following new/revised financial reporting standards and interpretations were applied with effect from 1 January 2015:

FRS 19 (Amendments): *Defined Benefits Plans: Employee Contributions*
Improvements to FRSs 2014

The initial application of the above standards (including their consequential amendments) and interpretations did not have any material impact on the Group’s financial statements.

There are a number of new/revised financial reporting standards in issue but not yet effective. They are not expected to have a material impact on the Group’s financial statements when adopted except for FRS 109: *Financial Instruments*. FRS 109 is effective from 1 January 2018.

Financial Results

Group net profit after tax was S\$993 million for the first quarter ended 31 March 2015 (“1Q15”), an increase of 11% as compared with S\$899 million a year ago (“1Q14”) and 26% higher than S\$791 million the previous quarter (“4Q14”). The strong results were underpinned by strong growth in the Group’s customer-related businesses across a more diversified earnings base, with our key markets of Singapore, Malaysia, Indonesia and Greater China all delivering positive profit growth. The first quarter results included the consolidation of OCBC Wing Hang Bank, which became a subsidiary in the third quarter of 2014.

Net interest income rose 15% to S\$1.25 billion, compared with S\$1.09 billion in 1Q14, underpinned by strong asset growth. Non-interest income was S\$859 million in 1Q15, 7% higher than S\$800 million a year ago. Fee and commission income grew 12% to S\$395 million, compared with S\$353 million in 1Q14, mainly attributable to higher wealth management, brokerage, fund management and trade fees. Net trading income of S\$123 million was higher than S\$99 million a year ago, while profit from life assurance of S\$199 million was up 9% from S\$183 million in 1Q14. Share of results of associates and joint ventures increased to S\$89 million from S\$17 million a year ago, largely attributable to contribution from Bank of Ningbo when it became a 20%-owned associated company of the Group on 30 September 2014.

Operating expenses, including OCBC Wing Hang, increased 24% to S\$873 million from S\$706 million the previous year. Allowances for loans and other assets were S\$64 million for the quarter as compared with S\$41 million a year ago. The Group’s non-performing loans (“NPL”) ratio was 0.6%, an improvement as compared with 0.7% in 1Q14.

Compared with 4Q14, Group net profit after tax was 26% higher from S\$791 million, mainly attributable to higher fee income, net trading income and profit from life assurance, as well as lower operating expenses and net allowances.

Annualised return on equity was 13.2% in 1Q15, compared with 14.9% in 1Q14 and 10.6% the previous quarter. Annualised earnings per share was 99.7 cents, compared with 101.6 cents a year ago and 77.4 cents in 4Q14. The decline in both ratios from a year ago were mainly attributable to the fully-subscribed 1-for-8 rights issue in the third quarter of 2014.

3. Net interest margin is net interest income as a percentage of interest earning assets.
4. Average rates are computed on an annualised basis.

Net interest income grew 15% to S\$1.25 billion in 1Q15, up from S\$1.09 billion a year ago, led by strong asset growth. The Group continued to strengthen its funding position, attracting new deposits at a faster pace than loan growth. Despite improving customer loan spreads in Singapore, the impact of a lower loans-to-deposits ratio and weaker income from money market gapping activities contributed to an 8 basis points decline in net interest margin to 1.62% from 1.70%.

Compared with 4Q14, net interest income decreased 2% from S\$1.28 billion, as asset growth was offset by a combination of a shorter quarter and a 5 basis points decline in net interest margin.

Non-interest income for 1Q15 was S\$859 million, 7% higher as compared with S\$800 million a year ago, supported by growth in fee and commission income, net trading income and insurance income.

Fees and commissions for the quarter increased 12% to S\$395 million from S\$353 million a year ago, led by growth in wealth management, brokerage, fund management and trade fees. Net trading income, primarily treasury-related income from customer flows, was S\$123 million, up from S\$99 million in 1Q14, while net gains from the sale of investment securities of S\$43 million for the quarter were down from S\$52 million a year ago. Profit from life assurance was S\$199 million in 1Q15, representing a 9% increase from S\$183 million in 1Q14, mainly attributable to better operating profit from Great Eastern Holdings (“GEH”) and mark-to-market gains in its Non-participating Fund.

Compared with 4Q14, non-interest income was up 13% from S\$762 million, as higher fee income, net trading income and profit from life assurance more than offset a decline in investment income.

Operating expenses for the quarter were up 24% to S\$873 million, compared with S\$706 million a year ago, partly contributed by the consolidation of OCBC Wing Hang. Staff costs rose 25% to S\$544 million from S\$437 million in 1Q14, largely from increased staff strength, as well as higher base salaries and incentive compensation. Property and equipment-related expenses increased 30% to S\$172 million, compared with S\$132 million a year ago, mainly a result of higher depreciation expenses. Other operating expenses were S\$157 million for the quarter, up 14% from S\$137 million in 1Q14, largely attributable to higher business promotion and volume-driven expenses. Excluding OCBC Wing Hang, operating expenses grew 9%, mainly from higher staff costs and increased headcount to support the growth of the Group's franchise in its key markets.

Compared with 4Q14, operating expenses were 5% lower from S\$922 million, largely a result of lower property and equipment-related expenses, and a decrease in communication, business promotion and professional expenses. Staff-related costs were relatively stable quarter-on-quarter.

The cost-to-income ratio was 41.4% for 1Q15.

NON-PERFORMING ASSETS (continued)

The Group's asset quality remained healthy. Non-performing assets ("NPAs") were S\$1.38 billion as at 31 March 2015, up 12% from S\$1.23 billion a year ago. Excluding the consolidation of OCBC Wing Hang, the Group's NPAs rose 3% from 31 March 2014. By geography, the increase was mainly from Singapore, Indonesia and Greater China (largely from the consolidation of OCBC Wing Hang), partly offset by declines in Other Asia Pacific and Malaysia. Excluding the consolidation of OCBC Wing Hang, the increase in NPAs by industry segment was mainly from the transport, storage and communication sector.

The Group's NPL ratio was 0.6%, an improvement from 0.7% a year ago and unchanged from the previous quarter.

Total NPAs as at 31 March 2015, which included classified debt securities and contingent liabilities, were S\$1.38 billion, an increase of 5% from S\$1.32 billion in the previous quarter. Of the total NPAs, 57% were in the substandard category and 70% were secured by collateral.

As at 31 March 2015, the Group's total cumulative allowances for assets were S\$2.29 billion, comprising S\$357 million in specific allowances and S\$1.93 billion in portfolio allowances. Total cumulative allowances were 166% of total NPAs and 559% of unsecured NPAs, higher as compared with the respective ratios of 145% and 396% a year ago. The higher coverage was partly attributable to the consolidation of OCBC Wing Hang's cumulative allowances.

Non-bank customer deposits as at 31 March 2015 of S\$250 billion were 26% higher than S\$199 billion a year ago, and increased 2% from S\$246 billion the previous quarter. OCBC Wing Hang's deposits of S\$35.5 billion accounted for 14% of total customer deposits as of 31 March 2015. Excluding OCBC Wing Hang, the year-on-year customer deposit growth of 8% was led by an increase in fixed deposits, savings deposits and current account, which grew by 11%, 11% and 10% respectively. The ratio of current and savings deposits to total non-bank deposits was 45.5% as at 31 March 2015. The Group's loans-to-deposits ratio, which includes OCBC Wing Hang, was 83.0% as compared with 87.0% a year ago and 84.5% in the previous quarter. As at 31 March 2015, the Singapore dollar and all-currency liquidity coverage ratios for the Group (excluding OCBC Wing Hang) were 273% and 117% respectively, higher as compared to the respective regulatory ratios of 100% and 60%. OCBC Wing Hang's liquidity coverage ratios will be incorporated into the overall Group position in due course.

Note:

- Public disclosures required under MAS Notice 637 Part XI can be found in the Capital and Regulatory Disclosures section of the Bank's investor relations website (http://www.ocbc.com/group/investors/Cap_and_Reg_Disclosures.html).

The Group remains strongly capitalised, with a Common Equity Tier 1 ("CET1") capital adequacy ratio ("CAR") of 13.5%, and Tier 1 CAR and total CAR of 13.5% and 15.5% respectively. These ratios, based on Basel III transitional arrangements, were well above the regulatory minima of 6.5%, 8% and 10%, respectively, for 2015. Compared with 31 December 2014, the Group's CAR was lower, largely attributable to an increase in risk weighted assets.

The Group's CET1 CAR, based on Basel III rules which will be effective from 1 January 2018, was 10.7%.

The capital adequacy information of the Group's significant banking subsidiaries as at 31 March 2015 were:

S\$ million	Total Risk Weighted Assets	Capital Adequacy Ratios		
		Common Equity Tier 1	Tier 1	Total
OCBC Wing Hang Bank Limited	20,196	11.0%	11.0%	14.1%
OCBC Bank (Malaysia) Berhad	13,351	12.5%	14.0%	15.6%
Bank OCBC NISP	9,005	na	17.8%	19.2%

Note:

- "na" denotes not applicable.

The capital adequacy ratios of OCBC Wing Hang Bank Limited are computed in accordance with the Banking (Capital) Rules issued by the Hong Kong Monetary Authority, and the ratios for OCBC Bank (Malaysia) Berhad are computed in accordance with the Capital Adequacy Framework (Capital Components) issued by Bank Negara Malaysia. Bank OCBC NISP computes their ratios based on the standardised approach under the Basel II framework. The computed CET1 CAR as at 31 March 2015 for Bank OCBC NISP based on Basel II rules would be 17.8%.

LEVERAGE RATIO

S\$ million	31 Mar 2015
Tier 1 Capital	26,656
Total exposures	368,544
Leverage ratio	7.2%

Note:

- Public disclosures required under MAS Notice 637 Part XI Division 3 Sub-division 11: Leverage ratio can be found in the Capital and Regulatory Disclosures section of the Bank's Investor Relations website (http://www.ocbc.com/group/investors/Cap_and_Reg_Disclosures.html).

In January 2014, the Basel Committee on Banking Supervision ("BCBS") issued the leverage ratio framework and its public disclosure requirements. In line with this, a revised MAS Notice 637 was issued in October 2014 requiring Singapore-incorporated banks to make leverage ratio disclosures with effect from 1 January 2015 to enhance the transparency and comparability of these disclosures across banks.

The leverage ratio is an indicator of capital strength to supplement the risk-based capital requirements and is the ratio of Tier 1 Capital to total exposures (comprising on-balance sheet exposures, derivative exposures, securities financing transaction exposures and off-balance sheet items). As at 31 March 2015, the Group's leverage ratio was 7.2%, above the minimum requirement of 3% which is being tested by BCBS during the parallel run period from 2013 to 2017.

UNREALISED VALUATION SURPLUS

S\$ million	31 Mar 2015	31 Dec 2014	31 Mar 2014
Properties ^{2/}	3,985	3,956	3,462
Equity securities ^{3/}	4,758	4,315	1,938
Total	8,743	8,271	5,400

Notes:

- Includes properties classified as investment properties and assets held for sale. Property values are determined mainly based on external valuations at year-end, with internal reviews performed for other quarters.
- Comprises mainly investments in quoted subsidiaries and an associate, which are valued based on their market prices at the end of each quarter.

The Group's unrealised valuation surplus largely represents the difference between the carrying values of its properties and investments in quoted subsidiaries and an associate, and the property values and market prices of the quoted investments at the respective periods. The carrying values of subsidiaries and associate on the balance sheet are measured at cost plus post-acquisition reserves, while those of properties are measured at cost less accumulated depreciation, and impairment, if any.

The valuation surplus as at 31 March 2015 was S\$8.74 billion and was 6% higher as compared with S\$8.27 billion as at 31 December 2014, mainly attributable to higher equity securities valuation from the Group's equity stakes in GEH and Bank of Ningbo.

PERFORMANCE BY BUSINESS SEGMENT

OCBC Group's businesses are presented in the following customer segments and business activities: Global Consumer/Private Banking, Global Corporate/Investment Banking, Global Treasury and Markets, Insurance and OCBC Wing Hang.

Global Consumer/Private Banking

Global Consumer/Private Banking provides a full range of products and services to individual customers. At Global Consumer Banking, the products and services offered include deposit products (checking accounts, savings and fixed deposits), consumer loans (housing loans and other personal loans), credit cards, wealth management products (unit trusts, bancassurance products and structured deposits) and brokerage services. Private Banking caters to the specialised banking needs of high net worth individuals, offering wealth management expertise, including investment advice and portfolio management services, estate and trust planning, and wealth structuring.

Operating profit after allowances increased 2% to S\$213 million in 1Q15, up from S\$209 million a year ago, largely attributable to higher net interest income which was partly offset by an increase in expenses. Compared with 4Q14, operating profit in 1Q15 rose 24% to S\$213 million, led by higher net interest income and fee income as well as lower expenses.

Global Corporate/Investment Banking

Global Corporate/Investment Banking serves institutional customers ranging from large corporates and the public sector to small and medium enterprises. The products and services offered include long-term loans such as project financing, short-term credit such as overdrafts and trade financing, deposit accounts and fee-based services such as cash management and custodian services. Investment Banking comprises a comprehensive range of financing solutions, syndicated loans and advisory services, corporate finance services for initial public offerings, secondary fund-raising, takeovers and mergers, as well as customised and structured equity-linked financing.

PERFORMANCE BY BUSINESS SEGMENT *(continued)*

Global Corporate/Investment Banking's operating profit after allowances fell 6% to S\$489 million in 1Q15, from S\$518 million a year ago, mainly from an increase in expenses and lower gains from investment securities, which was partly offset by growth in net interest income.

1Q15 operating profit rose 15% quarter-on-quarter to S\$489 million, largely attributable to lower allowances which more than offset a decline in net interest income.

Global Treasury and Markets

Global Treasury and Markets is responsible for the management of the Group's asset and liability interest rate positions, engages in foreign exchange activities, money market operations, fixed income and derivatives trading, and offers structured treasury products and financial solutions to meet customers' investment and hedging needs. Income from treasury products and services offered to customers of other business segments, such as Global Consumer/Private Banking and Global Corporate/Investment Banking, is reflected in the respective business segments.

Global Treasury's operating profit fell 3% year-on-year to S\$178 million in 1Q15, mainly from lower net interest income from reduced money market gapping opportunities and an increase in expenses, which more than offset higher net trading income. 1Q15 operating profit was 60% higher at S\$178 million as compared to S\$111 million the previous quarter, driven by an increase in net trading income.

Insurance

The Group's insurance business, including its fund management activities, is undertaken by 87.2%-owned subsidiary GEH and its subsidiaries, which provide both life and general insurance products to its customers mainly in Singapore and Malaysia.

GEH's operating profit after allowances and amortisation was S\$234 million in 1Q15, 5% lower than S\$247 million a year ago, mainly attributable to a one-off gain from partial disposal of GEH's stake in its China joint venture in 1Q14, partly offset by higher insurance income. Quarter-on-quarter, operating profit rose 2% to S\$234 million, led by an increase in insurance income.

After tax and non-controlling interests, GEH's contribution to the Group's core net profit was S\$181 million in 1Q15, lower than the S\$190 million a year ago but higher as compared with S\$169 million in 4Q14.

OCBC Wing Hang

The Group acquired a majority stake in OCBC Wing Hang on 15 July 2014 and it became a wholly-owned subsidiary on 15 October 2014. OCBC Wing Hang offers a comprehensive range of commercial banking and related financial services such as consumer financing, share brokerage and insurance.

OCBC Wing Hang, which was progressively consolidated from July 2014, contributed S\$92 million in 1Q15 to the Group's operating profit after allowances, which was 85% higher than S\$50 million in 4Q14, mainly from improved trading income.

Others

Others comprise mainly property holding, investment holding and items not attributable to the business segments described above.

The geographical segment analysis is based on the location where assets or transactions are booked. For 1Q15, Singapore accounted for 58% of total income and 57% of pre-tax profit, while Malaysia accounted for 17% of total income and pre-tax profit. Greater China, including OCBC Wing Hang, accounted for 15% of total income and 19% of pre-tax profit.

Pre-tax profit for Singapore was S\$698 million in the first quarter, up 2% as compared with S\$686 million in 1Q14, as higher net interest income and fee income more than offset an increase in operating expenses and allowances. Malaysia's pre-tax profit grew 3% to S\$210 million from S\$204 million a year ago, underpinned by net interest income growth, which outpaced higher operating expenses. Pre-tax profit for Greater China, which included the consolidation of OCBC Wing Hang, was S\$237 million in 1Q15, higher than S\$136 million in 1Q14.
