The Universal life insurance policies are provided by either The Great Eastern Life Assurance Company Limited, Transamerica Life (Bermuda) Ltd. (incorporated in Hamilton, Bermuda) or HSBC Insurance (Singapore) Pte Ltd.

PremierLife Generation II is provided by The Great Eastern Life Assurance Company Limited, a wholly-owned subsidiary of Great Eastern Holdings Limited and a member of the OCBC Group. This plan is not a bank deposit and OCBC Bank does not guarantee or have any obligations in connection with it.

PremierLife Generation II comes in SGD and USD currency. PremierLife Generation II (USD) is a USD plan. Please be aware that if USD is not your home currency, you will be exposed to foreign exchange volatility risk.

Foreign currency investments or deposits are subject to inherent exchange rate fluctuations that may provide opportunities and risks. Earnings on foreign currency investments or deposits would be dependent on the exchange rates prevalent at the time of their maturity if any conversion takes place. Exchange controls may be applicable from time to time for certain foreign currencies. You should therefore determine whether any foreign currency investment is suitable for you in light of your investment objectives, financial means, and risk profile. Any pre-termination costs will be deducted from your deposit.

This document does not take into account your particular investment and protection aims, financial situation or needs.

You may want to seek advice from a financial adviser before committing to buy the products. If you choose not to seek advice from a financial adviser, you should consider whether the products are suitable for you.

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid.

Any and all scenario analysis that are set out in this brochure is provided for illustrative purposes only. It does not present all possible outcomes or describe all possible factors that may affect the value of the proposed transaction.
